This list is just a start and will be updated as soon as a larger number of new entries have accumulated. So please feel free to distribute the list in your lace networks, communities and groups. I look forward to any information about organizations, schools, museums, galleries etc. that have an internet presence and deal with lace. Also, of course, any information about exhibitions and artists who have dedicated themselves to lace and are represented on the Internet with their work. I would be pleased to hear from you: cp@lacebutwhy.de.

The list is available in German and English and can be downloaded at www.lacebutwhy.de. If you need the list in another language, please contact me.
